INTRODUCTION

Q. Please state your name, position, employer and address.

A. Rodney L. Moore, Public Utilities Analyst V
Residential Utility Consumer Office ("RUCO")
1110 West Washington Street, Suite 220
Phoenix, Arizona 85007.

Q. Please state your educational background and qualifications in the utility regulation field.

A. Appendix 1, which is attached to this testimony, describes my educational background and includes a list of the rate case and regulatory matters in which I have participated.

Q. Please state the purpose of your testimony.

A. The purpose of my testimony is to present RUCO's recommendations regarding Arizona-American Water Company, Anthem Water and Anthem/Agua Fria Wastewater Districts' ("AZ-AM", "Company", "Anthem Water" and/or "Anthem Wastewater") application for a determination of the current fair value of its utility plant and property and for increases in its rates and charges based thereon for water and wastewater service. The test year utilized by the Company in connection with the preparation of this application is the 12-month period that ended December 31, 2005.

BACKGROUND

Q. Even though RUCO has a mandate to advocate the most reasonable utility rates for residential customers and will be recommending adjustments to mitigate the Company's proposed massive rate increase, please explain why it is inevitable there will be noticeable increases in residential rates for both water and wastewater services through this rate proceeding and additional filings to follow in the immediate future.

A. There are numerous reasons that AZ-AM filed for potential massive rate increases at this time. For instance:

1. Arizona statutes require the Arizona Corporation Commission ("Commission" and/or "ACC") to authorize utility rates, which provide a utility company with the opportunity to earn a profit on its prudent investment;
2. Del Webb created the new community of Anthem in an arid area that could never produce the water needed to support it;
3. To provide water for Anthem, Del Webb acquired an allocation of Colorado River water from the Ak-Chin Indian Community, along with delivery rights on the Central Arizona Project ("CAP");
4. Initially, Del Webb entered into an agreement with the Company's predecessor to provide water to service the territory;
5. To deliver the CAP water required the construction of a pumping station and a nine-mile pipeline;

1 6. To provide a guaranteed source of water to meet high peak loads,
2 the Company had to also arrange for two other capacity sources,
3 one with the City of Phoenix and another gravity fed reservoir tank
4 that overlooks Anthem;

5 7. To provide drinking water and waste collection required state-of-
6 the-art treatment facilities, storage and distribution system to
7 integrate a potable water supply from a renewable resource with a
8 wastewater facility that produced Class A+ reusable effluent, to
9 meet the new federal arsenic standard and to satisfy stringent fire-
10 flow requirements;

11 8. To provide service to a desert area that had no water supply
12 required enormous investments. Actual unadjusted 2005 gross
13 utility plant for Anthem cost \$81.6 million for the water system and
14 \$82.7 million for the wastewater system. Much of this plant was
15 financed by Contributions In Aid Of Construction ("CIAC") provided
16 by the developer, Del Webb. Of course, these CIAC's would need
17 to be paid back to Del Webb by the Company. Del Webb agreed to
18 delay the refunds so that the impact on ratepayers would be
19 lessened. Now that these contributions have begun to be refunded,
20 the Company's rate base will more accurately reflect the true cost
21 of the plant necessary to serve customers;

1 9. A Commission imposed three-year moratorium on filing a rate case
2 postponed the timely recovery of this investment;

3 10. To date AZ-AM has been compensated for only a small fraction of
4 this investment; and

5 11. AZ-AM anticipates additional refunds to the developer of \$39.2
6 million by 2008. The Company expects to file another rate case as
7 soon as this case concludes to recover the additional rate base that
8 will be generated by these refunds.

9

10 Q. Please describe your work effort on this project.

11 A. I obtained and reviewed data and performed analytical procedures
12 necessary to understand the Company's filing as it relates to operating
13 income, rate base, the Company's overall revenue requirement and rate
14 design. My recommendations are based on these analyses. Procedures
15 performed include the in-house formulation and analysis of RUCO data
16 requests, the review and analysis of Company responses to ACC Staff
17 data requests, conversations with Company personnel and the review of
18 prior ACC dockets related to the Company.

19

20 In Decision No. 67093, dated June 30, 2004, the Commission approved
21 the Company's present rates and charges for utility service. The test year
22 used in that proceeding was the 12-month period that ended December
23 31, 2001.

1 Q. What areas will you address in your testimony?

2 A. I will address issues related to rate base, operating income, revenue
3 requirements and rate design. RUCO's witness Mr. William Rigsby will
4 provide an analysis of the cost of capital.

5
6 Q. Please identify the exhibits you are sponsoring.

7 A. I am sponsoring Anthem Water Schedules and Anthem Wastewater
8 Schedules each numbered RLM-1 through RLM-16.

9

10 **SUMMARY OF ADJUSTMENTS**

11 Q. Please summarize the adjustments to rate base, operating income and
12 rate design issues addressed in your testimony.

13 A. My testimony addresses the following issues:

14 **Rate Base**

15 Prior Decision's Test-Year Gross Plant and Accumulated Depreciation –

16 This adjustment removes post-test-year plant and reconciles the value of
17 plant to accept verified errors embedded in Decision No. 67093.

18 Test-Year Gross Plant and Accumulated Depreciation – This adjustment
19 restates the value of test-year gross plant and accumulated depreciation
20 to reflect RUCO's computation of plant additions, retirements and
21 accumulated depreciation.

22 Post-test-year Imputed Advances and Contributions In Aid of

23 Construction– This adjustment corrects the amortization of the imputed

1 levels of Advances and Contributions in Aid of Construction since the
2 Citizen's Acquisition Agreement, and removes the Company-proposed
3 post-test-year amortization of advances and contributions in aid of
4 construction.

5 (Anthem Water Only) Amortized Payment For the City of Phoenix Water
6 Interconnection - This adjustment restates the value of the agreement as a
7 regulatory asset to remove it from rate base consideration and removes a
8 pro forma payment to reflect actual end of test-year transactions.

9 (Anthem Wastewater Only) Sewer Treated At Northwest Valley Treatment
10 Plant - This adjustment removes from rate base consideration the portion
11 of Sun City West Wastewater District's Northwest Valley Treatment Plant
12 used by Anthem Wastewater and restates it as an operating expense.

13 Allowance For Working Capital - This adjustment uses a lead/lag
14 methodology to calculate the appropriate level of working cash given
15 RUCO's recommended operating expenses.

16 **Operating Income**

17 Property Tax Expense – This adjustment reflects the appropriate level of
18 property tax expense given RUCO's recommended level of net plant-in-
19 service.

20 Depreciation Expense – This adjustment reflects the level of test-year
21 depreciation expense based on RUCO's adjusted gross plant-in-service
22 and the Company-proposed depreciation rates.
23

1 Rate Case Expense – This adjustment is based on RUCO’s determination
2 of the fair and reasonable cost to the ratepayers for this rate application
3 process.

4 Anthem Direct Payroll and Payroll Benefits – This adjustment reflects
5 computations based on actual Anthem Direct labor hours and the end of
6 test-year wage and salary levels.

7 Corporate Allocated Payroll and Payroll Benefits – This adjustment
8 reflects computations based on actual Corporate Allocated labor and the
9 end of test-year wage and salary levels.

10 Test-Year Operating Expenses – This adjustment to operating expenses
11 removes inappropriate expenditures not necessary in the provisioning of
12 water/wastewater service.

13 (Anthem Water Only) Pro Forma Budgeted Expenses For Conservation –
14 This adjustment removes pro forma costs associated with estimated post-
15 test-year conservation expenses to reflect an actual end of test-year
16 expense level.

17 (Anthem Wastewater Only) Expenses To Treat Sewer At Northwest Valley
18 Treatment Plant - This adjustment removes from rate base the cost of
19 treating sewer at Sun City West Wastewater District’s Northwest Valley
20 Treatment Plant and restates it as an operating expense.

21 Income Tax Expense – This adjustment reflects income tax expenses
22 calculated on RUCO’s recommended revenues and expenses.
23

REVENUE REQUIREMENTS

Q. Please summarize the results of RUCO's analysis of the Company's filing and state RUCO's recommended revenue requirement as outlined on respective Schedules RLM-1.

A. RUCO's recommended increase in the Company's revenue requirement is not to exceed:

	<u>AZ-AM</u>	<u>RUCO</u>	<u>DIFFERENCE</u>
ANTHEM WATER	\$4,548,026	\$2,395,426	(\$2,152,600)
ANTHEM WASTEWATER	\$2,500,188	\$1,532,254	(\$967,934)

RUCO's recommended revenue requirement percentage increase versus the Company's proposal is:

	<u>AZ-AM</u>	<u>RUCO</u>	<u>DIFFERENCE</u>
ANTHEM WATER	66.22 %	34.88 %	-31.34 %
ANTHEM WASTEWATER	40.75 %	24.97 %	-15.78 %

RUCO's recommended Fair Value Rate Base is:

	<u>AZ-AM</u>	<u>RUCO</u>	<u>DIFFERENCE</u>
ANTHEM WATER	\$43,100,616	\$31,603,778	(\$11,496,838)
ANTHEM WASTEWATER	\$24,636,158	\$18,188,546	(\$8,110,764)

1 Schedules RLM-2 outlines RUCO's recommended rate base with detailed
2 explanations on supporting Schedules RLM-3, RLM-4, and RLM-5.

3 RUCO's recommended required operating income is:

4		<u>AZ-AM</u>	<u>RUCO</u>	<u>DIFFERENCE</u>
5	ANTHEM WATER	\$3,590,281	\$2,316,557	(\$1,273,724)
6	ANTHEM WASTEWATER	\$2,052,194	\$1,33,220	(\$718,974)

7

8 **RATE BASE**

9 RUCO Rate Base Adjustment No. 1 – Adjust Prior Decision's Gross Plant
10 and Accumulated Depreciation

11 Q. Please explain your adjustment to the prior test-year gross plant-in-service
12 and accumulated depreciation.

13 A. Through discovery the Company provided documentation to reconcile the
14 actual AZ-AM Corporate and Central plant allocated to each District
15 versus the values authorized in Decision No. 67093. According to the
16 Company's records the corporate allocation authorized in Decision No.
17 67093 was incorrect and had the effect of allocating plant items that were
18 specific to individual districts to all districts. The Company has verified
19 and corrected the plant values authorized in the prior case and will be
20 relying on these corrected records in all future AZ-AM District rate cases.
21 Therefore, it is important to make the appropriate adjustments in the
22 instant case to avoid a double count of AZ-AM's rate base allocated
23 assets as their other Districts file rate case applications.

1 The effect of these corrections in the case of Anthem Water is a decrease
2 in plant-in-service and an increase in Anthem Wastewater's plant-in-
3 service.

4
5 As shown on the respective Schedules RLM-2, column (B), this
6 adjustment modifies the aggregate level of the adjusted test-year net
7 plant-in-service for:

8 Anthem Water by (\$210,812), and

9 Anthem Wastewater by \$386,577.

10
11 RUCO Rate Base Adjustment No. 2 – Adjust Test-Year Gross Plant and
12 Accumulated Depreciation

13 Q. Please explain your adjustment to the test-year gross plant-in-service and
14 accumulated depreciation.

15 A. As shown on respective Schedules RLM-3, this adjustment reflects
16 RUCO's analysis of the Company's filing, as well as the Company's
17 revisions to its workpapers, and RUCO's discussions with Company
18 witnesses to determine the actual value of plant additions, retirements,
19 and the associated accumulated depreciation since the prior adjusted test
20 year. The Company recognizes that its plant and accumulated
21 depreciation figures as filed are incorrect.

22

23

1 As shown on the respective Schedules RLM-2, column (C), this
2 adjustment decreases the aggregate level of the adjusted test-year rate
3 base for:

4 Anthem Water by (\$3,112,201), and
5 Anthem Wastewater by (\$2,150,074).

6

7 RUCO Rate Base Adjustment No. 3 – Remove Post-test-year Imputed

8 Advances In Aid of Construction and Contribution In Aid of Construction

9 Q. Please explain your adjustment to remove post-test-year imputed
10 Advances In Aid of Construction (“AIAC”) and Contribution In Aid of
11 Construction (“CIAC”).

12 A. There are two elements to my adjustment to impute AIAC and CIAC.
13 First, the Company began amortizing the AIAC and CIAC imputed
14 balances on January 1, 2001 rather than the date stipulated in the Citizens’
15 Acquisition Agreement of January 15, 2002. The calculations to correct
16 the AIAC and CIAC imputed balances for the actual end of test year are
17 shown on the respective Schedules RLM-4.

18

19 Second, in the instant case the Company proposes to reduce the test-year
20 unamortized balance of the imputed AIAC and CIAC to reflect additional
21 amortization that goes fully a year and a half outside the test year. This
22 proposal has the effect of increasing the water rate base by \$4,583,488
23 and the wastewater rate base by \$2,977,235, and thereby depriving

1 ratepayers of a portion of the benefit that the Company agreed to in
2 Decision No. 63584.

3

4 Q. Did the Company propose this same post-test-year adjustment its recent
5 Mohave Water and Wastewater rate cases?

6 A. Yes, however, in its rebuttal testimony in that case the Company agreed to
7 concede this issue in the face of Staff and RUCO opposition.

8

9 As shown on respective Schedules RLM-2, column (D) this adjustment
10 decreases the aggregate level of the adjusted test-year rate base for:

11 Anthem Water by (\$7,063,593), and

12 Anthem Wastewater by (\$4,588,204).

13

14 RUCO Rate Base Adjustment No. 4 – (Anthem Water Only) Adjust
15 Payment For the City of Phoenix Interconnect Agreement

16 Q. Please explain your adjustment to the Interconnection Agreement with the
17 City of Phoenix.

18 A. This adjustment consists of three elements. First, RUCO reclassified the
19 Company's adjustment from treatment as utility plant-in-service to
20 recognition as a regulatory rate base asset. Second, RUCO removed the
21 Company's adjustment to include the post-test-year payment of
22 \$1,000,000 recorded in June 2006. Third, RUCO adjusted the
23 amortization of the Company's payment to reflect a half-year convention

1 on the test-year amortized amount and the disallowance of the post-test-
2 year amortization.

3
4 These elements of my adjustment are necessary to adhere to the
5 historical test year principle, as well as to properly account for the Phoenix
6 Agreement as a regulatory asset and not plant-in-service.

7
8 As shown on Anthem Water Schedule RLM-2, column (E) this adjustment
9 decreases the aggregate level of the adjusted test-year rate base by
10 (\$890,411).

11
12 RUCO Rate Base Adjustment No. 5 – (Anthem Wastewater Only)
13 Reclassify Cost For Sewer Treated At Northwest Valley Treatment Plant

14 Q. Please explain why RUCO is reclassifying the Company's adjustment to
15 increase the rate base by the portion of plant used to serve customers
16 located in the Northern territory of the Agua Fria Sewer District.

17 A. Since the Anthem Wastewater District does not have ownership or a
18 contractual agreement for guaranteed sewer treatment at Sun City West
19 Wastewater District's Northwest Valley Sewer Treatment Plant, it cannot
20 be considered as a capital asset for recognition in rate base, as the
21 Company proposes. RUCO recommends the costs associated with this
22 service be reclassified as an operating expense.

23

1 Anthem Wastewater has no ownership in this plant and accordingly it
2 cannot be afforded rate base treatment. The corresponding adjustment
3 for the operations and maintenance ("O & M") costs of the treatment plant
4 are discussed in the operating income section of my testimony.

5
6 As shown on Anthem Wastewater Schedule RLM-2, column (F) RUCO
7 reversed the Company's adjustment LJG-4 by removing \$131,432 in gross
8 utility plant and reinstating \$46,161 in accumulated depreciation for an
9 aggregate decrease in adjusted test-year rate base of (\$85,271).

10
11 RUCO Rate Base Adjustment No. 6 – Adjust Allowance For Working
12 Capital

13 Q. What is the Company's requested level of cash working capital?

14 A. Zero.

15

16 Q. Do you agree with this?

17 A. No. The Company has not presented a lead/lag analysis in this case as
18 required by the Commission for A and B classed utilities.

19

20 Q. Please explain your adjustment to the allowance for working capital.

21 A. RUCO's adjustment is necessary to include the working cash requirement
22 as an integral part of the working capital allowance and subsequently a
23 determinant of the adjusted rate base. This adjustment is consistent with

1 RUCO's adjustments accepted by the Company in the AZ-AM's Mohave
2 Water and Wastewater rate case application.

3

4 Q. Have you recomputed working capital requirements for the Company
5 based on a lead/lag study.

6 A. Yes. RUCO outlines on the respective Schedules RLM-5, page 2 the
7 computed working cash requirement based on the "(Lead)/Lag Day"
8 parameters previously accepted by AZ-AM and RUCO's adjusted
9 operating expenses.

10

11 As shown on respective Schedules RLM-2, column (G) this adjustment
12 decreases the adjusted test-year rate base for:

13 Anthem Water by (\$272,547), and

14 Anthem Wastewater by (\$59,532).

15

16 **OPERATING INCOME**

17 Operating Income Summary

18 Q. Is RUCO recommending any changes to the Company's proposed
19 operating expenses?

20 A. Yes. The Company proposed thirty-three and thirty-two adjustments to
21 the historical test-year operating incomes of the Anthem Water and
22 Anthem Wastewater, respectively. RUCO analyzed the Company's
23 adjustments and made several additional adjustments to the operating

1 income as filed by the Company. My review, analysis and adjustments
2 are explained below.

3

4 Operating Income Adjustment No. 1 – Property Tax

5 Q. Before you begin to discuss RUCO's methodology of computing property
6 taxes is there an issue you wish to clarify.

7 A. Yes, the Company incorrectly calculated Anthem Water's adjusted
8 revenues for the year ended 2005. This miscalculation distorts the
9 relevance of RUCO's position on this subject by understating the
10 Company's recommended test-year property tax expense by \$81,744.

11

12 RUCO will continue to illuminate its rejection of the Company's
13 methodology for calculating the level of property tax expenses on the
14 grounds that it is not the best estimate of future property taxes. RUCO
15 bases its testimony on the corrected level of the Company's adjustment
16 had the Company imputed the appropriate amounts into its formula.
17 RUCO recalculated the Company's proforma property taxes using the
18 Company's methodology and determined that, had the Company used the
19 correct revenues, the Company's recommended total property tax would
20 have been \$412,326 versus the \$330,552 filed, a difference of \$81,774 or
21 a revised adjustment increase from the filed \$193,836 to \$275,610.

22

23

1 Q. Please continue with the explanation of your adjustment to the Property
2 Tax Expense account.

3 A. As shown on the respective Schedules RLM-8, I made an adjustment to
4 reflect the Company's property tax based on the use of historical inputs in
5 the ADOR formula.

6
7 Q. Please explain the basis for RUCO's adjustment to property tax expenses.

8 A. RUCO has repeatedly demonstrated before this Commission that using
9 historical revenues in the ADOR formula, as the formula dictates, is the
10 best, most accurate estimate of future property taxes.

11
12 RUCO is sure that this is the proper way to measure property tax, now
13 that actual post-test-year property tax expense is known, and comparisons
14 can be made.

15
16 In this case the comparison of actual property tax for 2006 to the
17 estimates using the ADOR recommended revenues and the Company's
18 recommended revenues illustrates that the use of historical inputs in the
19 ADOR's formula is far more accurate.

20

21

22

23

1 Q. How does the Company's methodology vary from the ADOR formula?

2 A. The Company has varied the ADOR formula by using, for valuation
3 purposes, two years of adjusted revenues plus one year of proposed
4 revenues.

5

6 The property tax formula, as prescribed in ADOR's memo of January 3,
7 2001, determines the Full Cash Value ("FCV") of water utilities, for
8 property tax purposes, by multiplying the average of the three previous
9 years of reported gross revenues of the Company by a factor of two.

10

11 Q. What is the result of the Company's calculation of the property tax pro-
12 forma adjustment?

13 A. The result is a FCV, which will likely allow the Company to over-earn
14 based on its expected property tax expense. Among the goals of ADOR
15 was to arrive at a forward looking valuation formula that would produce
16 predictable values, logical results and minimize the tax impact from the
17 previous year.

18

19 Q. Do you have any evidence RUCO's calculation is more appropriate?

20 A. Yes, I do. The evidence in this case once again attests to the accuracy of
21 RUCO's calculation. Using ADOR's formula, RUCO's recommended
22 property tax expenses for 2006 are respectively \$328,643 and \$257,985
23 for Anthem Water and Wastewater Districts. By comparison, the

Company's 2006 proposed property tax expenses are respectively \$412,326 (RUCO corrected) and \$345,574 for the Anthem Water and Wastewater Districts. The actual property taxes assessed by ADOR for 2006 are respectively \$264,576 and \$196,290 for the Water and Wastewater Districts. Thus, the ADOR formula using historical inputs results in a better estimate of property tax expense than does the Company's "modified" formula.

ANTHEM WATER

<u>YEAR</u>	<u>ACTUAL ADOR ASSESSMENT</u>	<u>ADOR/RUCO FORMULA</u>	<u>COMPANY MODIFIED</u>
2006	\$264,576	\$326,572	\$412,326

ANTHEM WASTEWATER

<u>YEAR</u>	<u>ACTUAL ADOR ASSESSMENT</u>	<u>ADOR/RUCO FORMULA</u>	<u>COMPANY MODIFIED</u>
2006	\$196,290	\$255,369	\$348,574

It is unlikely that the Company will generate revenues consistent with its estimates in the near future. Because of the lag between the time the tax is incurred and the time the tax is collected, the Company will be over-collecting the property tax expense for quite a few years before the actual assessment will catch up to the Company's 2006 projected revenue. In fact as will be fully explained below, it will be another three years before new rates are fully incorporated into the formula. In the meantime, the

1 Company will be recovering its property tax expense based on an inflated
2 revenue projection.

3
4 Q. When will the Company pay the property tax impacted by the changes in
5 revenues approved in this rate case?

6 A. Assuming rates go into effect by the end of 2007, it will not be until the end
7 of 2008 before the Company will have one full year of operating revenues
8 at the new rates.

9
10 The Company will pay property taxes for the tax-year 2008 semi-annually,
11 the first payment becoming due in October 2008, and the final payment
12 due in March 2009. The impact that this rate increase has on the property
13 tax assessment will take two additional years before being fully reflected
14 on the property tax bill.

15
16 Therefore, the ADOR calculation that encompasses the full effect of the
17 authorized rate relief in the instant case will not be computed until 2011,
18 because it is not until then that historical years 2008, 2009 and 2010 will
19 be assessed.

20

21

22

23

1 Q. Please summarize your adjustment to the property tax expense.

2 A. As outlined on respective Schedules RLM-8, this adjustment decreases
3 adjusted test-year operating expenses for:

4 Anthem Water by (\$1,909) (See note below), and

5 Anthem Wastewater by (\$90,589).

6

7 NOTE: Had the Company accurately computed its formula for the
8 property tax in Anthem Water, RUCO's adjustment would have been a
9 decrease of (\$85,754).

10

11 Operating Income Adjustment No. 2 – Depreciation Expenses

12 Q. Please explain your methodology to compute depreciation expense.

13 A. RUCO computed test-year depreciation expense for each District by
14 multiplying RUCO's level of test-year gross plant-in-service by the
15 Company's proposed depreciation rates.

16

17 As outlined on the respective Schedules RLM-9, this adjustment modifies
18 adjusted test-year operating expenses for:

19 Anthem Water by (\$231,210), and

20 Anthem Wastewater by \$195,231.

21

22

23

1 Operating Income Adjustment No. 3 – Rate Case Expense

2 Q. Please explain RUCO's adjustment to Rate Case Expense.

3 A. This adjustment consists of two elements. First, the Company's estimate
4 for rate design and cost of service was reduced; and second, the
5 Company's arbitrary rounding up of the rate case expenses was removed.

6
7 Q. Please elaborate on the first element of the rate case expense adjustment.

8 A. The Company's estimate for Rate Design and Cost of Service studies
9 expense is \$143,000; however, I disallowed \$100,000. The \$43,000 that
10 RUCO allowed and recommended is based on AZ-AM Paradise Valley
11 Water District's most recent rate case. In that case, Mr. Ronald Kozoman
12 charged \$10,000 for the Cost of Service Study and \$5,000 for the Rate
13 Design. This \$43,000 recommended by RUCO is more than enough to
14 recognize that two systems were involved in this case.

15

16 Q. Please elaborate on the second element of the rate case expense
17 adjustment.

18 A. The Company's rate case expenses included \$16,038 to round its
19 estimate up to \$300,000. RUCO considers this an unnecessary
20 computation and therefore removed this component from its
21 recommended level of rate case expense.

22

23

1 Q. What is your total recommended rate case expense adjustment?

2 A. As shown on respective Schedules RLM-10, I have reduced the Company
3 requested rate case expense of \$300,000 by \$116,038 to remove the
4 excess costs discussed and the rounding issue just discussed. I then
5 allocated my recommended rate case expense of \$183,962 based on a
6 50/50 split between the Water District and Wastewater District. I have
7 accepted the Company-proposed three-year amortization rate. This
8 results in a \$19,340 annual reduction in the Company's requested rate
9 case expense.

10

11 Operating Income Adjustment No. 4 – Normalized Anthem Direct Payroll
12 and Payroll Benefits

13 Q. Please explain your adjustment to normalize Anthem direct payroll and
14 payroll benefits.

15 A. This adjustment is based entirely on the data extrapolated from the
16 Company's workpaper designated as "Labor Transactions". Through the
17 Company's workpaper I determined the actual test-year labor required to
18 provide service to the test-year customer base. This level of labor-hours
19 became the basis by which the components of this adjustment were
20 calculated.

21

22 The major reason for this adjustment is that the Company based its
23 adjustment to payroll expense components (i.e. the cost of labor, 401(k),

1 group insurance and payroll taxes) on calculations using the employee
2 hourly rate of pay that was awarded post-test year in April of 2006.
3 Instead, RUCO adhered to the matching principal and relied on the rate-
4 making elements established within the historical test-year, which included
5 calculating the payroll expense components based on end of test-year
6 salary levels.

7

8 In summary, as shown on respective Schedules RLM-7, column (E) and
9 outlined on supporting Schedules RLM-11, column (A), this adjustment
10 decreases adjusted test-year operating expenses for:

11 Anthem Water by (\$67,818), and

12 Anthem Wastewater by (\$59,958).

13

14 Operating Income Adjustment No. 5 – Normalized Corporate Allocated
15 Payroll and Payroll Benefits

16 Q. Please explain your adjustment to normalize corporate allocated payroll
17 and payroll benefits.

18 A. This adjustment follows the same format as the previous adjustment for
19 Anthem direct payroll expense and is primarily driven by the Company's
20 use of post-test-year salary increases.

21

22

23

1 In summary as shown on respective Schedules RLM-7, column (F) and
2 outlined on supporting Schedules RLM-11, column (B), this adjustment
3 decreases adjusted test-year operating expenses for:

4 Anthem Water by (\$13,396), and
5 Anthem Wastewater by (\$9,735).

6

7 Operating Income Adjustment No. 6 – Disallowance of Inappropriate
8 and/or Unnecessary Expenses

9 Q. Please explain your analysis of the various operating expense accounts
10 that result in your removal of inappropriate or unnecessary costs for the
11 provisioning of water/wastewater service.

12 A After review of all the journal entries in various expense accounts, I
13 determined there were numerous expenditures that were either
14 questionable, inappropriate and/or unnecessary.

15

16 Therefore, as shown on respective Schedules RLM-12 and supporting
17 workpapers attached, I have made an adjustment to remove test-year
18 expenses related to payments for gifts, awards, corporate events,
19 advertising and for various meals, lodging and refreshments, which are
20 not necessary in the provisioning of water and wastewater service. The
21 back-up documentation denoting each individual expense removed is
22 recorded in my Workpaper Schedules WP RLM-12.

23

1 The burden of proof is on the Company to substantiate the
2 appropriateness of the journal entries identified and the Company has
3 failed to justify the entries.

4
5 As shown on Schedule RLM-7, column (G), this adjustment decreases
6 adjusted test-year operating expenses for:

7 Anthem Water by (\$78,333), and

8 Anthem Wastewater by (\$13,413).

9

10 Operating Income Adjustment No. 7 – (Anthem Water Only) Remove Pro
11 Forma Expenses Budgeted For Conservation

12 Q. Please explain your adjustment to remove the pro forma expenses in the
13 Company's conservation budget.

14 A. The Company has projected costs that may be incurred for promoting
15 water conservation in Anthem during 2006. These expenses were not
16 filed with known, measurable and verifiable documentation and
17 furthermore the expenditures were scheduled to be incurred outside the
18 test year.

19

20 As a general rule, to avoid a mismatch in ratemaking elements, RUCO
21 does not recognize post-test-year or non-known and measurable
22 expenses.

23

1 Therefore, as shown on the Anthem Water's Schedule RLM-7, column (H)
2 this adjustment decreases the adjusted test-year operating expenses by
3 (\$7,500).

4

5 Operating Income Adjustment No. 8 – (Anthem Wastewater Only)
6 Reclassify Cost For Sewer Treated At Northwest Valley Treatment Plant

7 Q. Please explain why RUCO is reclassifying the Company's adjustment to
8 increase the rate base by the portion of plant dedicated to serve
9 customers located in the Northern territory of the Agua Fria Sewer District.

10 A. This is a companion adjustment to the Anthem Wastewater's rate base
11 adjustment number 5. Since Anthem Wastewater does not have a capital
12 investment in the Sun City West Wastewater District's Northwest Valley
13 Treatment Plant it cannot record costs associated with the treatment of
14 sewer from some its Agua Fria/Anthem customers as a plant asset and
15 include it in its rate base. The treatment facilities Sun City West utilizes to
16 process some of Agua Fria/Anthem's sewage should appropriately be
17 reflected as an asset on Sun City West's books and records and as O & M
18 costs to Anthem Wastewater.

19

20

21

22

23

1 Therefore, RUCO calculated this test-year expense by taking the total
2 annual test-year operating expenses, as per Sun City West Wastewater
3 rate case application WS-01303A-06-0491, of \$1,266,963 and multiplying
4 that amount by the percentage of the capacity in that plant that Anthem
5 Wastewater used during the test year (i.e. 2.25%).

6
7 As shown on Anthem Wastewater Schedule RLM-7, column (I) this
8 adjustment increases adjusted test-year operating expenses by \$28,507
9 [2.25% X \$1,266,963 = \$28,507].

10
11 Operating Income Adjustment No. 9 – Income Tax Expense – This
12 adjustment reflects income tax expenses calculated on RUCO's
13 recommended revenues and expenses.

14
15 As shown on respective Schedules RLM-7, column (J), and outlined on
16 supporting Schedules RLM-13 this adjustment increases adjusted test-
17 year operating expenses for:

18 Anthem Water by \$258,413, and
19 Anthem Wastewater by \$49,140.

20

21

22

23

RATE DESIGN

Q. Please explain RUCO's recommended rate designs.

A. As shown on the respective Schedules RLM-14, RUCO uses the same parameters as the Company proposes in its rate design (i.e. same percentages of revenue generated by each class of service and same percentage of revenue generated between the fixed and variable components) to reflect RUCO's recommended revenue requirement.

PROOF OF RECOMMENDED REVENUE

Q. Have you prepared a Schedule presenting proof of your recommended revenue?

A. Yes, I have. Proof that RUCO's recommended rate designs will produce the recommended required revenue as illustrated, is also presented on the respective Schedules RLM-14.

TYPICAL BILL ANALYSIS

Q. Have you prepared a Schedule representing the financial impact of RUCO's recommended rate design on the typical residential customer?

A. Yes, I have. A typical bill analysis for residential customers with various levels of usage is presented on the respective Schedules RLM-15.

1 **COST OF CAPITAL**

2 Q. Is RUCO proposing any adjustments to the Company proposed cost of
3 capital?

4 A. Yes, it is. As shown on Schedule RLM-16, this adjustment decreases the
5 Company's cost of common equity and therefore its weighted cost of
6 capital by 100 basis points from 8.33 to 7.33 percent to reflect current
7 market conditions. This adjustment is fully explained in the testimony of
8 RUCO witness Mr. Rigsby.

9

10 Q. Does this conclude your direct testimony?

11 A. Yes, it does.

APPENDIX 1

Qualifications of Rodney Lane Moore

EDUCATION: Athabasca University
Bachelor's Degree in Business Administration - 1993

EXPERIENCE: Public Utilities Analyst V
Residential Utility Consumer Office
Phoenix, Arizona 85007
May 2001 - Present

My duties include review and analysis of financial records and other documents of regulated utilities for accuracy, completeness, and reasonableness. I am also responsible for the preparation of work papers and Schedules resulting in testimony and/or reports regarding utility applications for increase in rates, financings, and other matters. Extensive use of Microsoft Excel and Word, spreadsheet modeling and financial statement analysis.

Auditor
Arizona Corporation Commission
Phoenix, Arizona 85007
October 1999 - May 2001

My duties include review and analysis of financial records and other documents of regulated utilities for accuracy, completeness, and reasonableness. I am also responsible for the preparation of work papers and Schedules resulting in testimony and/or reports regarding utility applications for increase in rates, financings, and other matters. Extensive use of Microsoft Excel and Word, spreadsheet modeling and financial statement analysis.

CALCULATION OF IMPUTED REGULATORY AIAC AND CIAC**

LINE NO.	DESCRIPTION	(A) RUCO AS ADJUSTED	(B)	(C) COMPANY AS FILED	(D) RUCO ADJUSTM'T
-------------	-------------	-------------------------	-----	----------------------------	--------------------------

NOTE

The Company Started Amortizing The AIAC & CIAC Imputed Balances On January 1, 2001 Rather Than The Date Stipulated In The Citizens' Acquisition Agreement Of January 15, 2002. The Corrected AIAC & CIAC Imputed Balances For Actual End Of Test Year December 31, 2005 Are As Follows:

AIAC

1	Beginning Balances On January 15, 2002	\$ 29,093,642			
2	Authorized Amortization Period Of 6.5 Years Equals -15.38%				
3	Amount Amortized For Jan. 15 Thru Dec. 31, 2002	\$ (4,292,002)			
4	Amount Amortized For Jan. 1 Thru Dec. 31, 2003	(4,475,945)			
5	Amount Amortized For Jan. 1 Thru Dec. 31, 2004	(4,475,945)			
6	Amount Amortized For Jan. 1 Thru Dec. 31, 2005	(4,475,945)			
7	Total Amortization Thru December 31, 2004	<u>\$(17,719,837)</u>			
8	TOTAL NET TEST-YEAR AIAC		\$ 11,373,805	\$ 4,475,945	\$ 6,897,860
9	RUCO ADJUSTMENT TO IMPUTED REGULATORY AIAC				<u>\$ 6,897,860</u>

CIAC

10	Beginning Balances On January 15, 2002	\$ 1,075,425			
11	Authorized Amortization Period Of 10 Years Equals -10.00%				
12	Amount Amortized For Jan. 15 Thru Dec. 31, 2002	\$ (103,123)			
13	Amount Amortized For Jan. 1 Thru Dec. 31, 2003	(107,543)			
14	Amount Amortized For Jan. 1 Thru Dec. 31, 2004	(107,543)			
15	Amount Amortized For Jan. 1 Thru Dec. 31, 2005	(107,543)			
16	Total Amortization Thru December 31, 2004	<u>\$ (425,750)</u>			
17	TOTAL NET TEST-YEAR CIAC		\$ 649,675	\$ 483,942	\$ 165,733
18	RUCO ADJUSTMENT TO IMPUTED REGULATORY CIAC				<u>\$ 165,733</u>

LINE NO.	DESCRIPTION	(A) RUCO ADJUSTMENT	(B)	(C) COMPANY AS FILED	(D) RUCO AS ADJ'TED
-------------	-------------	------------------------	-----	----------------------------	---------------------------

NOTE

The Company Started Amortizing The AIAC & CIAC Imputed Balances On January 1, 2001 Rather Than The Date Stipulated In The Citizens' Acquisition Agreement Of January 15, 2002. The Corrected AIAC & CIAC Imputed Balances For Actual End Of Test Year December 31, 2005 Are As Follows:

AIAC

1	Beginning Balances On January 15, 2002	\$ 19,045,098			
2	Authorized Amortization Period Of 6.5 Years Equals -15.38%				
3	Amount Amortized For Jan. 15 Thru Dec. 31, 2002	\$ (2,809,603)			
4	Amount Amortized For Jan. 1 Thru Dec. 31, 2003	(2,930,015)			
5	Amount Amortized For Jan. 1 Thru Dec. 31, 2004	(2,930,015)			
6	Amount Amortized For Jan. 1 Thru Dec. 31, 2005	(2,930,015)			
7	Total Amortization Thru December 31, 2004	<u>\$(11,599,649)</u>			
8	TOTAL NET TEST-YEAR AIAC		\$ 7,445,449	\$ 2,930,015	\$ 4,515,434
9	RUCO ADJUSTMENT TO IMPUTED REGULATORY AIAC				<u>\$ 4,515,434</u>

CIAC

10	Beginning Balances On January 15, 2002	\$ 472,196			
11	Authorized Amortization Period Of 10 Years Equals -10.00%				
12	Amount Amortized For Jan. 15 Thru Dec. 31, 2002	\$ (45,279)			
13	Amount Amortized For Jan. 1 Thru Dec. 31, 2003	(47,220)			
14	Amount Amortized For Jan. 1 Thru Dec. 31, 2004	(47,220)			
15	Amount Amortized For Jan. 1 Thru Dec. 31, 2005	(47,220)			
16	Total Amortization Thru December 31, 2004	<u>\$ (186,938)</u>			
17	TOTAL NET TEST-YEAR CIAC		\$ 285,258	\$ 212,488	\$ 72,770
18	RUCO ADJUSTMENT TO IMPUTED REGULATORY CIAC				<u>\$ 72,770</u>
